DIAL SERVICE—WARRENTON

LOCAL CALLS

Do not start to dial until you hear the dial tone—a steady hum which is heard when the equipment is ready to receive your call.

Dial carefully. Do not hurry or retard the dial.

Dial only the figures of the listed number.

TO CALL ANOTHER PARTY ON YOUR OWN LINE

Telephone numbers of other customers on your line will have the same first three figures as your telephone number. To call another party on your line, dial "9", then the last figure of your own number and then the last figure of the desired party's number. Immediately after the dialing is completed hang up the receiver. Ringing will start and continue until the called party answers. When the ringing stops, remove your receiver and start conversation. In case the called party does not answer, remove your receiver momentarily to stop the ringing.

DIRECTORY FACTS

COPIES OF THIS DIRECTORY

Use of an out-of-date directory interferes with good telephone service, as each new issue contains many changes in numbers and listings. For this reason we ask that they be destroyed at the time the succeeding issue is distributed.

Every effort is made to make the directory as accurate as possible. The Company, however, assumes no liability for damages arising from errors or omissions in the making up or printing of its directories.

DIRECTORIES OF OTHER CITIES

Telephone directories of other cities may be consulted at our Business Office. We cordially invite you to make use of these directories. If you wish to purchase any copies they may be obtained by arrangement with our Business Office.

"LIPS CLOSE TO THE MOUTHPIECE FOR BEST RESULTS"

It's as important to keep the transmitter close to your mouth as it is to have the receiver close to your ear. For best results please speak slowly and clearly in an even tone of voice, directly into the transmitter, with your lips close to the mouthpiece.

Make "Phone Plans" part of your Home Plans...

built-in telephone facilities are inexpensive

Whether that dream home you're going to build is a mansion or a simple cottage, the cost of installing built-in telephone facilities during construction will be well within your budget.

Conduit (that's a metal tube concealed in the wall through which wires are drawn when your telephone service is installed) leads to locations where telephone instruments would be handiest and most serviceable. Whether your immediate need is for a single telephone, or for several, you meet it more practically and economically this way. It permits locating the instruments where most convenient. You avoid marring finished walls or bringing exposed wire along the baseboards.

We maintain an Architects' and Builders' Service at no cost to you to help you match good "Phone Plans" with your preferred Home Plans. Call on us before building begins.

Two friendly telephone habits: QUICK to answer when your bell rings; SLOW to hang up when you call someone who does not immediately respond. In calling others, remember that the called person may be almost there—so wait a few seconds longer.

You Can Help

You want the best telephone service possible. We want you to have it! Will you cooperate with us in the following ways, in order that your telephone calls at all times may be clear and satisfactory?

- Please speak directly into the transmitter with lips just clearing the mouthpiece.
- Please speak distinctly and not too rapidly.
- Please do not shout—just use your normal talking voice.
- Please be sure of the number before calling. If in doubt, please look it up in the directory. That saves you annoyance — and somebody else unnecessary steps.
